

include/components
/boxCollider.hh

```
graph TD; A["include/components<br>/boxCollider.hh"] --> B["vector"]; A --> C["core/geometry.hh"]
```

The diagram illustrates a header file dependency. A central box at the top, labeled 'include/components/boxCollider.hh', has two arrows pointing downwards to two separate boxes. The left box is labeled 'vector' and the right box is labeled 'core/geometry.hh'. This indicates that the 'boxCollider.hh' file includes both the 'vector' header and the 'core/geometry.hh' header.
