

BlockManager::update

Kamek::update_SUMMON

EntityManager::spawnEntity

```
graph LR; A[BlockManager::update] --> C[EntityManager::spawnEntity]; B[Kamek::update_SUMMON] --> C;
```

The diagram illustrates a functional dependency. On the left, two white rectangular boxes with black borders contain the text 'BlockManager::update' and 'Kamek::update_SUMMON'. On the right, a gray rectangular box with a black border contains the text 'EntityManager::spawnEntity'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'BlockManager::update' and 'Kamek::update_SUMMON' call or utilize 'EntityManager::spawnEntity'.
